

New Zealand Christmas Catalogue

Adelaide, November 21, 2005 — Legend has started its annual roadshow period with a joint show with Hitachi in Melbourne, Australia and with Hynix in Auckland, New Zealand.

The Hitachi show featured presentations from Karthik Laxman from Hitachi Global Storage Technologies and Rob Kester, Director - worldwide sales for Legend. Clients were told of the strengths of both the Hitachi and Legend linecard as well as emerging Hard Disk Drive technology such as perpendicular recording of which Hitachi is at the forefront.

In New Zealand Legend CEO Bradley Dowe was joined by Hynix's K C Suh & H C Kim. Bradley shared with clients the current memory and flash developments of both Hynix and Legend as well as showcasing the Legend Digital range of consumer electronics. The lucky door prize consisted of a Legend Digital 30" LCD screen which was won by Karn Woodcock of Compusync. Legend plans on shows in other regions throughout the quarter.

Legend New Zealand Senior Account Manager Nicki Morton awarding the Legend Digital 30" LCD to Karn Woodcock of Compusync.

About Legend

Legend is a digital technology company that makes and sells memory and memory based consumer electronics products to customers across the globe. Legend's operations extend throughout Australia, New Zealand, South Africa, Singapore, Hong Kong, Thailand, Taiwan and Europe. Legend was established in 1989 and commenced manufacturing operations in 1993. Legend has manufacturing facilities in Adelaide (South Australia) and Singapore. Legend has a broad range of clients including Acer, Sony, Xerox, NEC and Dell, through to major Australian based computer systems integrators such as Volante, ASI and Optima. The Legend Digital range of consumer electronics offer customers innovative technology at prices they can afford and is available at major merchandising chains including Dick Smith Electronics, Kmart, Myer and Harvey Norman.
