

Legend sponsors Technology Futures Conference

Melbourne, July 23, 2006 — Legend as a supporter of the local electronics industry and of innovation was the platinum sponsor of this year's Technology Futures Conference (TFC) held at Melbourne's Crown Casino. The TFC has established itself as the leading national conference forum for engineers, managers, analysts and other key decision makers in the Australian electronics and technology industries.

TFC 2006's central theme was "Engineering the Future". The event explored how we take today's "blue sky" research and turn it into the Australian exports of the future.

Legend's Rob Kester & Carrie Doyle congratulating the prize winner at the conference.

About Legend

Legend is a digital technology company that makes and sells memory and memory based consumer electronics products to customers across the globe. Legend's operations extend throughout Australia, New Zealand, South Africa, Singapore, Hong Kong, Thailand, Taiwan and Europe. Legend was established in 1989 and commenced manufacturing operations in 1993. Legend has manufacturing facilities in Adelaide (South Australia) and Singapore. Legend has a broad range of clients including Acer, Sony, Xerox, NEC and Dell, through to major Australian based computer systems integrators such as Volante, ASI and Optima. The Legend Digital range of consumer electronics offer customers innovative technology at prices they can afford and is available at major merchandising chains including Dick Smith Electronics, Kmart, Myer and Harvey Norman.
